

OFFICIAL RULES

Digital Quest

The Crystals of Varya

MetaMindGames

1. Presentation of the Quest

The Crystals of Varya is a 100% digital quest created by MetaMindGames.

It is designed for all types of players: puzzle enthusiasts, curious minds, and fans of immersive storytelling, whether they are from Web2 or Web3.

The quest is based on a system of progressive puzzles involving reasoning and analysis.

No randomness, no financial mechanics: only understanding allows progression.

2. Access to the Quest

Access to the quest is available through two distinct formats, depending on the player's profile.

This quest is intentionally accessible to everyone from the age of 18, in order to respect the diversity of player profiles.

Some players prefer a simple, immediate experience with no technical constraints. Others enjoy a paced, community-driven progression rooted in the Web3 universe.

Both approaches lead to the same quest, with the same final puzzles. The choice depends solely on how you prefer to play.

The choice between Web2 or Web3 access does not affect the difficulty or the final resolution of the quest.

It only determines the pace at which puzzles are accessed and the way the experience is lived: immediate and unrestricted for Web2, progressive and community-oriented for Web3.

The NOXIUM Pass and the MINDER Pass

NOXIUM Pass

The **NOXIUM** Pass is designed for players who wish to focus solely on solving the puzzles.

It requires no knowledge of Web3, no wallet, and no specific technical actions.

Once the pass is acquired, all puzzles are sent by email on the scheduled date*, allowing players to play freely, alone or in a group, at their own pace.

NOXIUM Digital Pass

Price: €20
Purchase on the official
MetaMindGames website
Payment in euros

Holders of the NOXIUM Pass will receive the full set of puzzles and game elements in a single delivery by email **on January 14, 2026** (*).
No community-related constraints are imposed.

MINDER Pass (NFT)

The **MINDER** Pass is intended for players who wish to experience the quest as an evolving journey, integrated into a community-driven dynamic.

The NFT is not a financial tool: it acts as an advanced digital access badge, allowing earlier entry into the quest and enabling it to be experienced as an evolving journey, paced by simple actions over time.

It is designed for players who enjoy a structured progression and regular interaction with the community, without providing any advantage in the final resolution.

Early Adopters: December 13, 2025
Public mint: December 15, 2025
NFT revealed immediately, with no delayed reveal.

Access via the minting of an NFT
Payment in Solana cryptocurrency
Total supply: 104 NFTs
Single price: 0.15 SOL

Web3 players can start the quest from **January 4, 2026**, with a progressive unlocking of the puzzles.

The Quest: Content and Objective

Each player has access to 12 digital cards:

- 10 Giant cards, each containing a unique puzzle
- 1 Minder card, serving as a guide
- 1 Varya card, acting as a complementary guide
- A digital game board allows players to verify the integrity of the Seal of Varya's Bracelet once all the Giants have been identified.

Final Objective :

To find the names of the 10 Giants in order to reconstruct the Final Secret.

4.1 Quest Progression

Web2 Players (NOXIUM Pass)

Access to all puzzles at once

No progressive unlocking

Immediate access to dedicated Discord channels

Final validation on Zealy.io

From January 14, 2026

Web3 Players (MINDER Pass)

Web3 players unlock the puzzles over 10 days, at a rate of one puzzle per day.

DAY	UNLOCKED CONTENT
D1 - 01/04/2026	1 puzzle + 1 guide card + game board
D2 to D9	1 puzzle per day
D10	1 puzzle + 1 additional guide card

This daily progression allows Web3 players to immerse themselves in the quest earlier, while maintaining complete fairness with Web2 players.

Each day: ***Starting January 4, 2026***

Validation of a simple task on Zealy.io

Automatic unlocking of the day's visual and puzzle

These actions were designed to remain accessible while supporting the project's visibility.

Regardless of the chosen access mode, the game logic remains the same: observe, analyze, connect the clues, and apply method.

4.2 Quest Progression

The provided tools (cards, visuals, board) are intended solely to support reasoning, never to replace it.

This staggered structure was designed to ensure complete fairness among all players, regardless of their access mode.

From **January 14, 2026**, all participants have access to the same number of puzzles and the same information to solve the Final Secret.

5. Platforms & Validation

Conditions

Discord and Zealy are used as gameplay tools, not as technical constraints.

Discord allows the centralization of exchanges, ensures the confidentiality of answers, and enables players to track their progress without exposing their solutions.

Zealy, an independent platform, guarantees neutral and timestamped validation of final answers in order to ensure fair designation of winners.

All players must join the official Discord, which is essential to:

- follow the progression of the quest,
- use the answer validation bot,
- prevent any public disclosure of answers.
- The Discord bot allows you to test your answers in complete confidentiality.

It is used solely to verify your personal progress and never publicly reveals solutions.

Zealy.io:

Independent platform

Used to validate the final answer

Automatic timestamping ensuring fairness

6. Winning Conditions

The quest ends as soon as three players have correctly validated the Final Secret.

No fixed end date is imposed.

The ranking is based solely on speed and accuracy.

Speed is assessed from the moment all puzzles are accessible to all players, ensuring identical conditions for final validation.

7. Prize Pool Composition

The final prize pool is designed as a collective reward, funded directly by player participation.

This is not an investment, but a transparent redistribution system, entirely linked to the game and its resolution.

Rewards are paid in crypto (SOL or USDC).

1 SOL ≈ €130 (indicative value)

Prize pool funding:

- NOXIUM Pass: 50% of payments in euros
- MINDER Pass: 70% of the mint amount

All funds are pooled into a single reward wallet prior to distribution.

8. Podium & Rewards

Prize Distribution:

Ranking	Total share	Bonus
1st	50 %	+ Commander Pack
2nd	30 %	+ Sentinel Pack
3rd	20 %	+ Outrider Pack

9. NFT-Related Bonuses

Some NFTs in the collection have specific properties, intentionally integrated as surprise and collectible elements.

These bonuses are never required to solve the quest. They simply reward the engagement or curiosity of collectors.

Specific NFTs (4 out of 104)

- 1 **Varya** NFT = 1 Precursor **Freemint** (Q1 2026)
- 1 **Minder** NFT = 1 Precursor **Freemint** + Commander Pack (€150)

-

Only **2 Minder NFTs** and **2 Varya NFTs** are hidden within this unique collection.

NFT Collection Bonus:

Holding 1 copy of each of the **10 Giants** within the same wallet grants:

- 1 Precursor Minder **Freemint**
- 1 Commander **Pack** (€150)

10. Ranking & Payout

Rewards are paid within a maximum of **7 days**.

In **SOL or USDC**, according to the player's choice.

Official announcement during a dedicated **event evening**.

11. Transparency & Security.

Transactions verifiable on Solscan

Public MetaMindGames wallet

Limited data (GDPR)

Puzzle-based game, with no financial nature

12. Anti-Cheating Rules

Permitted:

- NFT exchanges on Magic Eden

Prohibited:

- Multiple Zealy accounts
- Bots or automation
- Sharing of solutions
- Manipulation of the bot or visuals
- Toxic behavior

Sanctions:

- Permanent exclusion
- Discord ban
- Loss of rewards

13. Live Sessions

- Live Q&A sessions every two weeks
- Questions drawn at random
- Answers provided by Atlas
- Replies available
- Quest available in FR & EN
